Notes:

~ Increase or decrease of less than 0.5%

All figures are rounded and include cathedrals.

As totals and percentage changes are calculated on unrounded figures they will not always agree with sums and percentages based on the rounded figures.

The infant, child and adult age groups for baptisms and thanksgivings have traditionally been defined as under 1 year of age, 1-12 years and 13+ years respectively.

Notes:

~ Increase or decrease of less than 0.5%

All figures are rounded and include cathedrals.

As totals and percentage changes are calculated on unrounded figures they will not always agree with sums and percentages based on the rounded figures.

** Since 1972 new electoral rolls have been prepared every 6 years but in this period full revisions took place in 2002 and 2007.

Church attendance levels over a typical month are calculated from a four week church attendance count over October

Usual Sunday Attendance figures are estimated differently across the dioceses. They are typically estimates by parishes of attendance on a 'normal' or usual Sunday
