

SUPPORTED HOUSING

We have seven supported housing schemes, all of which provide independent living with support. The schemes employ multi-disciplined staff teams, and a variety of support services are offered to residents whilst helping them to retain their independence. Emergency cover is provided at night through emergency pull cord systems. These connect to careline centres which are staffed at all times. Repairs to the communal areas and the upkeep and servicing of the gardens and communal equipment are paid for through the rent and service charge and residents are consulted every year about the following years charges.

All the residents have their own self-contained flats, and they share the use of communal facilities such as the dining rooms, communal lounges, laundry facilities, libraries and lifts. In addition, at the heart of the schemes they all have their own on-site chapels. Most of the flats have one bedroom although there are a small number of two-bedroom flats at some of the schemes. At some of the schemes there are both large and small one-bedroom flats with the small flats being designed for single person occupation. Guest rooms are available at all of the schemes and residents can book these for when their friends and relatives want to visit.

A choice of hot meals is provided every day of the year and at some schemes breakfasts and evening meals are also available. All the properties are situated in attractive locations and all stand in their own grounds with most having extensive gardens for the exclusive use of residents.

If you are interested in viewing one of the properties, please contact the Scheme managers whose contact details are provided below.
