

The first meeting of the women Bishops steering committee set up after the General Synod debate in July 2013 took place on 5th and 6th September in Coventry.

The committee considered a first draft of the Measure and amending canon as requested by Synod and also looked at the possible shape of a declaration from the House of Bishops and a mandatory grievance procedure. The discussions were serious, honest and constructive.

The committee is due to meet again on 11th and 12th on October 2013.
