

Welcome to Church of England Digital Labs - a hub of resources, news and events to support digital evangelism and digital discipleship in your church.

## **Blogs**

How-to guides, first hand stories, and digital news covering digital communications, strategy, social media and technology. Industry standard advice made relevant to you and your church.

[Read the blog](#)

## **Newsletter**

Join the Digital Labs newsletter to receive monthly updates and news direct to you. Our newsletter community are always the first to hear about events and webinars when they are announced.

[Join the community](#)

## **Webinars**

Join an interactive webinar and learn about topics such as creating a Facebook group, copywriting for social media, or how to livestream a service from your church building.

[Attend an interactive webinar](#)

## **Digital Labs conference**

An online event for churches who want to learn how to use digital creatively and sustainably for onsite and online communities.

[Discover the conference here](#)

## **Featured resources**

### **Step-by-step guide to online and onsite services**

A resource combining missional and digital wisdom from the Church of England to inspire and inform churches planning for the post-covid online world

[Access it here](#)

### **Guide to getting started with live streaming**

A complete guide on how to live-stream a church service or event

[Read](#)

## **Guide to getting started on social media**

Setting up, moderating, safety and useful tips for anyone running social media and website projects for churches.
