

The NCIs provide national level support for the work of the Church.

Everyone is welcome including those of all faiths and none.

With many roles based at Church House Westminster, we are a support centre providing an astonishing diversity of expertise, advice, guidance and services to the whole Church, supporting Church leaders in their national roles and enabling the work of the dioceses and Cathedrals. We also look after of the Church's historic legacy, ensuring that these funds are used wisely to contribute to the future of the Church.

A high priority for us is supporting the work of the wider Church through the delivery of a programme of change to support growth through a range of initiatives. Together we have recently embarked on refreshed work focused on culture, encompassing leadership, engagement of our people, and inclusion and belonging, together with a project to redesign our workplaces to encourage collaboration.
