

Setting out a compelling agenda for change, in careful gospel-driven discernment, balancing the needs of individuals, communities, and society, maximising opportunities, and ensuring fairness for all.

The purpose of the Commission will be to set out a compelling agenda for change, in careful gospel-driven discernment, balancing the needs of individuals, communities, and society, maximising opportunities, and ensuring fairness for all. In order to understand why disparities exist, what works and what does not, the Commission will listen and learn from the process of participative engagement, and consider detailed quantitative data and qualitative evidence, commissioning new research and inviting submissions where necessary and engaging with stakeholders and conversation partners across and beyond the Church.

The Commission will report to the Archbishops every six months during the three-year period 2021-2023, with recommendations to help the Archbishops fulfil their commitments to identify, respond to, and root out systemic racism in the Church.
