

St Mary's Beaminster (Diocese of Salisbury) have recently implemented wide-reaching changes to their Grade I-listed church building with a view to cutting its fossil fuel reliance. The team involved managed to bring in renewably-powered and effective heating, well suited to the needs of the parish, all whilst maintaining respect for the medieval fabric of the church. Given the extensive practical limitations that faced the project,

it was considered a success, even if it is too early to fully quantify the scale
