

The Archbishops' Commission on Reimagining Care was tasked with developing a radical and inspiring vision of care and support, drawing on Christian theology, tradition, and values.

In this new report – 'Care and Support Reimagined: a National Care Covenant for England' – the Commission has laid out steps towards reaching this new vision. The report argues that we must:

1. Rethink attitudes to care and support
2. Rebalance roles and responsibilities
3. Redesign the social care system
