

The Church is committed to working with and supporting the diversity of Britain's households in every community and at national level. We believe the family is an important part of God's plan for a healthy society.

Just about every social policy issue has an impact on families. It's part of our witness to Christ, to keep that impact in focus.

The Church has its own positions and its own debates and differences about what's OK in love and family life. But our main concern is to support all families, the best way we can.
