

GROWTH FUND – TIER 2

REVIEW PROFORMA

This document has been specifically crafted for your application. Please return it to the Administrator by the date specified in your letter. It is the Committee's intention that this form be used to celebrate your project to the wider Diocese, and therefore the information provided in this document will be used for advertising purposes.

This document accompanies the excel spread sheet that relates to your application, please include any comments that you have about the Transformational Index on here.

*It would be really helpful if you were able to include **at least one image file (e.g. JPEG)** that can be used by the Growth Fund for publicity purposes. Please be aware that any photo included may be displayed on the Diocesan Website or in publicity materials. It is the applicant's responsibility to ensure that any photos that are included have the relevant written permissions from those in the picture where these are necessary. Inclusion of any photo will be taken to mean that this is the case.*

Name of the Project:

What has been transformational about your project that the numbers on the excel spread sheet do not capture?

What specifically have the benefits of undertaking this project been so far and how have you see them?

So that we can encourage and help other projects through your experiences; please share what hasn't worked as well as had been hoped and how did you respond?

What have been the key learning points?

How do you intend to continue the ministry past the lifetime of this grant?

How can we pray for you? (This question is internal, purely so that Committee members can prayerfully support you).

The Committee is seeking to ensure that stories of where God is work within your community are captured. Please provide 1 video file of approximately 1 min in length answering 1 of the following questions:

Where have you seen God at work?

How has prayer made a difference?

Please liaise with the Support Officer (who may be able to come film you) for further information on this.

Please also include a statement of accounts for your project.

Where appropriate, please provide 200 words summarising one aspect of your project so far that will be used to celebrate your project and as promotional material for the Growth Fund to encourage others (copy and pasting from a previous answer is ok here):
