Maps of the parishes and dioceses of the Church of England utilising 2001 government census information		40

Foreword

Introduction

Church Statistics 2002 continues to provide results from fresh attendance measures collected by Church of England parishes and cathedrals since the turn of the millennium. These must be interpreted against the background of the 2001 government census results which indicated a continuing majority of the English population to be Christian. In summary, 72% of the population of England was Christian, 6% of other faiths, 14% of no religion and 8% did not state their religion.

In a pluralistic society, Christian denominations continue to play a significant role in the life of our country. Approximately half of the adult population regards itself as Anglican (2003 and 2001 Opinion Research Business surveys). For the first time *Church Statistics 2002* provides more detailed geographical evidence of the continued involvement of the Church of England in the everyday lives of men, women and children at the beginning of the twenty-first century. This has been facilitated by the successful completion of the digitisation of the parish boundaries sponsored jointly by the Church of England dioceses and the Church Commissioners.

New attendance statistics

Following a major review of annual statistical information collection from parishes, new attendance measures were designed with dioceses during the summer of 2000. That autumn the first and perhaps most significant change was effected successfully across the majority of dioceses. Up and down the length and breadth of England, churches began to count the attendance levels at their church services throughout four weeks in October. There is no single period in the year when church attendance could be said to be 'normal' or even 'average' but October is accepted by our ecumenical partners as the easiest and most comparable month in which to carry out this quantitative exercise.

It would be wrong to make direct comparisons between the numbers found to be in our church services across October and the figures which churches report as their *usual Sunday attendance*. Examination of the attendance levels collated in this publication in tables 11 and 12 reveal ***a larger church than was previously understood*** although the actual number attending each week has slightly decreased. On average 1.2 million people attended church based services of worship each week, 1 million of these on Sundays. Numbers fluctuated week by week, among adults on average doubling at points across the month while almost quadrupling among children and young people. Across a typical month in the year parish church and cathedral worship attracted 1.7 million people but only 1.4 million of these attended on Sundays. The Church is indeed a seven days a week Church.

Easter and Christmas are traditionally festivals in the Christian year when many attend special occasions of worship in our parish churches and cathedrals. Churches and cathedrals were asked to estimate attendance levels at these festivals for the first time in 2000. The results are challenging and in the case of cathedrals reflected steadily increasing numbers throughout the year. On Christmas Day/Eve 2002 2.6 million people attended church and cathedral worship, while 1.5 million attended on Easter Day. The importance of this Christian festival in people's lives is evident in that Christmas services attracted over twice the average weekly attendance of our parish churches and cathedrals. Figures collected in previous years were directly comparable. Taking into account other services of worship (carols, Christingles etc.) not included in this Christmas count, ***the size of the Anglican Church in England, if portrayed in these terms, is approaching 3 million people which is three times the figure of 1 million often cited in the public arena.***

Occasional offices

The church has traditionally monitored electoral roll and baptism levels, but from 2000 parishes and cathedrals have been asked to estimate the number of occasions where people received direct pastoral contact through each of the occasional offices. Marriages can be performed in recognized places other than churches and cathedrals. Tables 23 and 24 (based on local authority registrars returns) indicate that a quarter of marriages were performed by Church of England ministers. Local churches had significant opportunities for mission and ministry through 443,000 occasional offices performed by their ministers in 2002. Funerals accounted for over half

of these which is a significant pastoral load for the many clergy who are unsupported in this particular ministry. Baptisms and thanksgivings represented over a third of the occasional offices, marriages and blessings of civil marriages about one in seven. At these essentially family and community events, local churches have unique opportunities for contact among a wide constituency and recent opinion surveys show this to be valued by the Christian public.

Finance

It will be the experience of most, if not all, PCCs that the largest item of their expenditure is the contribution made in 'parish share' to the diocese. This largely funds the stipends and housing of the clergy and the support costs of the diocesan staff. These costs are 'shared' around the parishes, often via the deaneries.

In 2002 the total sum requested from parishes increased by 6.3% over 2001 to £238 million. Did the giving of Church people increase to meet this challenge?

The *First to the Lord* report on funding the Church's mission said that 'Christian giving is primarily the responsibility of the household of faith'. Giving should be planned, regular and proportional to income (the General Synod set a target of 5% of take-home pay). Those who pay income or capital gains tax are encouraged to make their regular giving by Gift Aid. Each £1 given then becomes £1.28 to the Church.

So it is encouraging to discover from these statistics that regular giving increased by 5.9% and the tax recovered increased by 9.6%. The actual sum given with the tax recovered was over £235 million – almost enough to pay the 'parish shares'.

Obviously the PCC has other bills to pay as well and, if all the planned giving is being used for the parish share, it has to rely on other sources of income. Collections at services increased by less than 1% but that hopefully indicates that more people are giving tax-effectively rather than in loose cash. Other giving increased by 6.4% and fund raising by 5.3%. These other sources of income, both for the PCC's general fund and restricted to particular purposes, brought in a further £197 million.

Summary

Today people support their local church (and cathedral) in many different ways. An opinion survey in October 2003 by Opinion Research Business revealed that 86% of adults had visited a local church or chapel in the previous year for a wide range of activities alongside attendance at church worship. While the quantitative information is not fully comprehensive, it does provide a healthy picture of the variety of local church life. Church attendance patterns, the role of the occasional offices, the increased diversity of ordained and lay ministries, financial giving and other measures of church support are all continuing to evolve at the turn of the millennium in ways which are beginning to capture the interest of many serious church commentators.

We are particularly grateful to the dioceses and the parishes for continuing to embrace new aspects of the annual parochial return exercise. Their co-operation continues to remain crucial to the successful gathering of the information required for this publication and we are encouraged that they too are finding the results useful for their own forward planning. This edition includes as much appropriate information as possible from the Diocese in Europe and from diocesan cathedrals.

***Research and Statistics Department
Archbishops' Council, July 2004***

Definitions

In the tables relating to **attendance at church services** new measures of church attendance are employed:

Average Sunday attendance

= the average number of attenders at Sunday church services typically over a four week period in October.

Average weekly attendance

= the average number of attenders at church services throughout the week typically over a four week period in October.

Each of the above measures are provided separately for adults and children/ young people aged under 16 years. The highest and lowest counts over the four week period are calculated as follows:

Highest Sunday/ weekly attendance

= the sum of the highest Sunday (weekly) attendances over the four week period.

Lowest Sunday/ weekly attendance

= the sum of the lowest Sunday (weekly) attendances over the four week period.

Attendance figures have only been included where local churches held at least one church based service (which included adult presence) during the week under examination.

Definitions (continued)

In the tables relating to **finance**, components of income and expenditure are defined as follows:

Income

Tax-efficient planned giving = tax-efficient planned giving including regular Gift Aid donations.

Total direct giving = planned giving plus church collections and boxes.

Other voluntary income = all other voluntary income for ordinary expenditure excluding direct giving and income tax, e.g. fund-raising events, net profit on magazine/bookstall, sundry donations.

Total voluntary income = direct giving plus income tax plus other voluntary income.

Other recurring income = dividends and interest, recurring diocesan and other grants, and all other income for expenditure on ordinary purposes of the PCC, net surplus from church hall or other buildings, income from endowments or trust funds if used for ordinary purposes.

Total recurring income = total voluntary income plus other recurring income.

Expenditure

Total recurring expenditure = the total of ALL expenditure (including charitable giving) for the ordinary purposes of the PCC i.e. excluding only non-recurring items of capital expenditure and non-revenue items.

Notes

1. While many figures in this booklet have been rounded, totals, percentages and averages were calculated before rounding. Hence row and column totals will not always agree exactly with the sum of the stated amounts.
2. Among the 13,000 parishes of the Church of England there are around **600 Local Ecumenical Partnerships** in roughly half of which there is a congregation and a ministry shared between the Church of England and certain other churches. In such circumstances it is not always possible (or indeed desirable) to isolate the Anglican component of the congregation. The parochial statistics will therefore include a small element which may appear also in the statistics of other churches.
3. Figures for **cathedrals** and **the Diocese in Europe** are included as far as possible. Their inclusion is most frequently inappropriate in the finance tables.
4. **Unrestricted income** is income that may be used by the PCC for general church expenses. **Restricted income** is income which may not be used for any purpose other than as specified by the donor. (Income which a PCC designates for a specified purpose is considered to be unrestricted, since the PCC and not the donor is determining how it is to be used.)
5. **Recurring income** includes direct giving, other voluntary income and any other recurring income. **One-off income** includes non-recurring grants, legacies, special appeals, insurance claims and the sale of fixed assets.
6. **Recurring expenditure** includes donations to charities, parish share/quota, clergy expenses, church running costs, costs relating to trading, salaries and support costs. **Capital expenditure** includes major repairs, redecoration and new building work.

Notes :

- The above figures include only those stipendiary clergy who were working full-time within the diocesan framework as at 31st December, 2002.
- The Archbishop of Canterbury and ordained members of his staff at Lambeth are classed as extra-diocesan and are not included in these figures.

3 . Dignitaries holding more than one dignity are included only in the higher ranking dignity.

4 . Column 10 includes Team Vicars, Priests-in-Charge and Curates-in Charge of Conventional Districts.

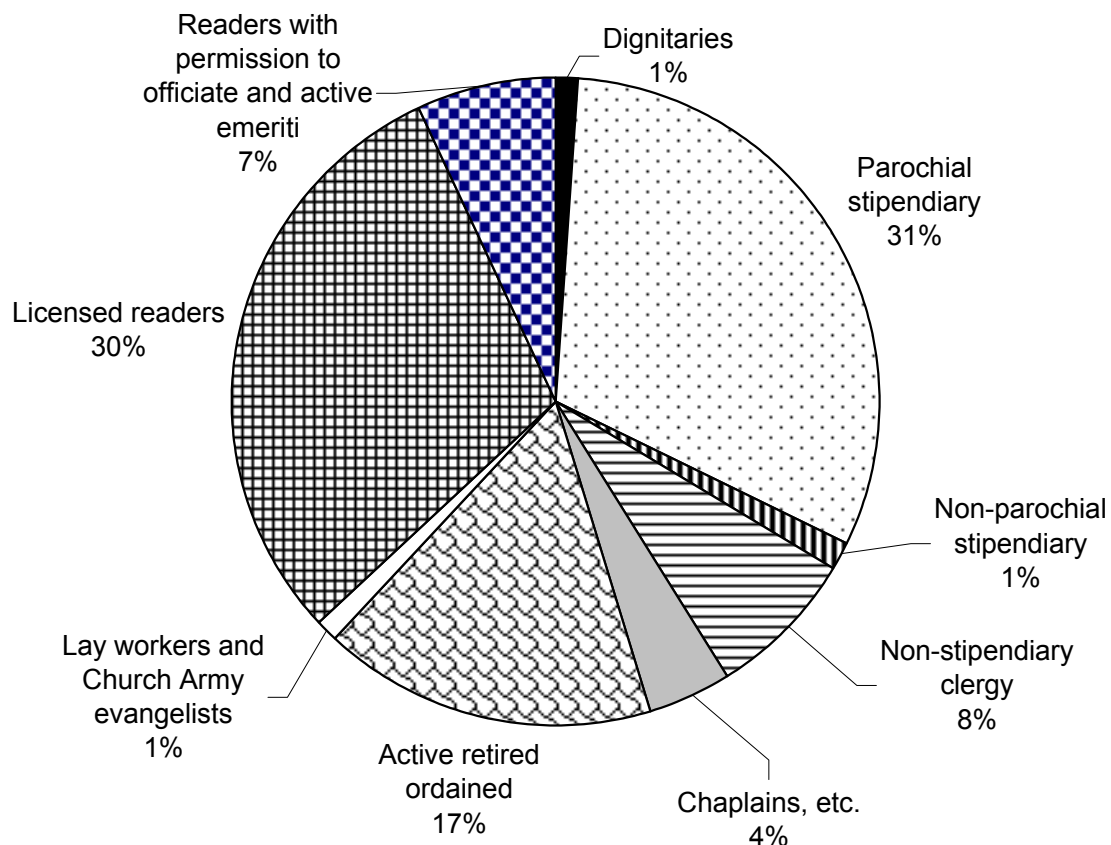

3 Chaplaincy and other ministries 2002

	Men	Women	Total
Royal Navy Chaplains	46	0	46
Army Chaplains	121	1	122
Royal Air Force Chaplains	49	2	51
Prison Chaplains	91	31	122
Hospital Chaplains	252	105	357
School Chaplains	141	20	161
Higher & Further Education Chaplains	66	19	85
Other Chaplains	131	14	145
Ordained Staff of Theological and Bible Colleges and other Christian Centres for Education and Research	50	20	70
TOTAL	947	212	1,159

Notes

1. The table does not include chaplains counted elsewhere in the statistics; for example included in table 2 are 139 men and women who have full time Diocesan appointments as Chaplains of one sort or another.
2. Apart from chaplains, ordained members of the teaching staffs of schools and colleges are not counted here, but are included within the non-stipendiary figures on figure 4.
3. Where an individual holds more than one appointment it has to be a subjective decision as to where to place an individual. This means that there is inevitably some disparity between the above figures and those for previous years.

4 Comparison of licensed ministries 2002

Dignitaries	370	Parochial stipendiary	8,712
Non-parochial stipendiary	399	Non-stipendiary clergy	2,091
Chaplains, etc.	1,159	Active retired ordained	4,624
Layworkers and Church Army evangelists	351	Licensed readers	8,384
		Readers with permission to officiate and active emeriti	1,900

The figures for dignitaries, parochial clergy, non-parochial diocesan and other clergy and lay workers (including Church Army evangelists) above are based on statistics derived from the central Church payroll. Details of chaplains and other ministers working outside the diocesan framework, and of non-stipendiary clergy, are based on statistics derived from the database used to compile *Crockford's Clerical Directory*. Where possible they have been cross-referenced with material produced by organizing bodies (e.g. the Home Office for prison chaplains, and the Hospital Chaplaincies Council for hospital chaplains).

The figure shown for active retired ordained clergy is an estimate of the number of licensed retired clergy who take an active part in ministry. It is based on the number of retired clergy known to have either permission to officiate, licence to officiate or actual appointments (4,624). Pension Board records indicate a total of 7,931 retired stipendiary clergy.

8 Parochial occasional offices 2002

New statistics gathered on the occasional offices reveal that on average each (stipendiary) parochial cleric undertakes one occasional office every week and this is almost equally split between funerals and the remaining occasional offices. Almost 443,000 occasional offices were taken during the year 2002 by parish and cathedral ministers. Approximately half were funerals, over a third were baptisms or services of thanksgiving while about one in seven were marriages or blessings of civil marriage.

Since 2001 there has been a 2% drop in the number of occasional offices undertaken by parish and cathedral ministers which appears to be equally spread across the different offices.

In 2002, Church of England parochial funerals were conducted for 45% of all deaths in England. In addition to parochial funerals, funerals were also conducted by Church of England clergy outside the parochial system, for example by chaplains or by retired clergy without reference to the local parish.

- Notes:**
1. Electoral Rolls are revised annually and new rolls are compiled every six years. Thus in 1990, 1996 and 2002 new electoral rolls were compiled.
 2. Figures for cathedrals are included for 2001 and 2002
 3. N/A These figures are not available so national electoral roll totals for 1990 and 1996 do not include the Diocese of Europe.

2001**	1,372	157	781	938
2002**	1,206 #	151	766	917

- Notes:**
- * The infant baptism figures for 1980 and later years are not directly comparable with those of previous years, because from 1978 the returns have specified infant baptisms as those under one year of age in order to relate more realistically to live births.
 - Before 1957 the minimum age for inclusion in the electoral roll was 18. From 1957-1980 the age was lowered to 17 after which it was reduced again to 16. Electoral roll figures for 1982 and previous years include some cathedral rolls. These have been excluded from the figures for later years.
 - # Since 1972 new rolls have been prepared every 6 years. Such years are marked with a # symbol.
 - N/A These figures are not available.
 - ** Electoral roll and confirmation figures for 1997 to 2002 include the Diocese in Europe.

Church attendance 2002

	Weekly attendance 2002 (2001)			Sunday attendance 2002 (2001)		
	Adult 000s	Children & young people 000s	Total 000s	Adult 000s	Children & young people 000s	Total 000s
	1	2	3	4	5	6
Highest attendance	1,291 (1,332)	422 (416)	1,677 (1,708)	1,139 (1,170)	277 (285)	1,390 (1,425)
Average	937 (976)	228 (229)	1,166 (1,205)	835 (868)	167 (173)	1,002 (1,041)
Lowest attendance	690 (727)	111 (113)	822 (862)	621 (657)	93 (99)	731 (774)

Notes: 1. Figures for cathedrals and their daughter churches are included.
 2. Children and young people are under 16 years of age while adults are 16 years of age or over.
 3. From 2000 church attendance figures are calculated typically from a four-week count in October.

34 Planned giving 2002

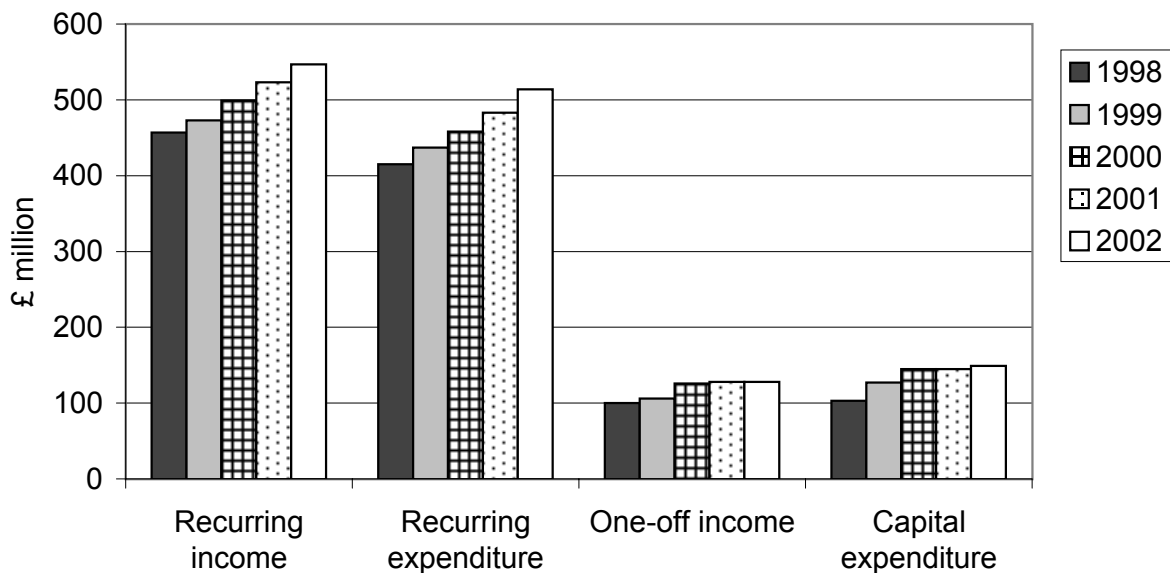

35 Tax-efficient planned giving as a percentage of unrestricted recurrent income

Between 1990 and 2002 tax-efficient planned giving has increased, as a proportion, from 30% of unrestricted recurrent income to 39%.

36 Five year comparison of income and expenditure

In the five year span between 1998 and 2002 recurring income increased by 20% compared with a rise in the Retail Prices Index of 8%.

Over the same period recurring expenditure increased by 24%, one-off income increased by 28%, and capital expenditure increased by 45%.

37 Combined unrestricted and restricted tax-efficient planned giving to PCCs 2002

- Notes:
- Figures for cathedrals are not included.
 - * Gift Aid and covenants.
 - ** Excluding appeals and donations for special purposes.
 - Definitions of composite items and totals are given on page x.
 - Figures for Sodor & Man are not strictly comparable with those for other dioceses because of different income tax arrangements in the Isle of Man.
 - The total direct giving for the Diocese in Europe in 2002 was £3,583,933 an average of £7.41 per week per electoral roll member, in 2001 it was £3,082,000, an average of £6.10 per week per electoral roll member.

45 Government regions and the English dioceses

**Source: Geographical Information System Parish Mapping
(Church Commissioners/Archbishops' Council)**

Notes:

1. See figure 1 for diocesan reference numbers.
2. The Channel Islands are annexed to the Diocese of Winchester.
3. The Isles of Scilly are included in the Diocese of Truro.
4. The Diocese in Europe is part of the Province of Canterbury. It has clergy and congregations in the rest of Europe, Morocco, Turkey and the Asian countries of the former Soviet Union.
