## Introduction

Data presented in this report were collected from the 2016 Chapel survey, which took place in Oxford, Cambridge, and Durham University college chapels. The aim of the survey and this report is to build up a picture of the valuable contribution chapels make locally and to the national church. These data will help to highlight the activities taking place in these chapels and to act as a starting point for understanding how chapels contribute to local and national worship. It is recognised that chaplaincies of many different types – in universities, prisons, hospitals, schools, and elsewhere – have important roles to play in their communities; this work with Oxford, Cambridge, and Durham University college chapels is only a starting point for understanding the wider role of chaplaincies.

The survey was sent to all 56 college chapels. 46 responded, giving an overall response rate of 82%. No estimation has been attempted for chapels that did not respond, so the totals presented may understate the full scale of the activities of Oxford, Cambridge, and Durham University college chapels.

College chapels were asked to report on many different things, including the number of baptisms, thanksgivings, marriages and funerals carried out in their chapel; usual midweek and Sunday attendance during term time (based on either an 8 or 9-week term); worshipping community; choral and musical traditions; Easter, Christmas and Advent service attendance.

This is the second time a chapel survey has been conducted with these three universities, the first being in 2014.

The survey questions can be found at the end of this report.

## Acknowledgements

We are extremely grateful to those chaplains and other members of staff and volunteers who completed the College Chapels survey and to The Revd Canon Dr Simon Jones of Merton College, Oxford and Revd Duncan Dormor, former Dean of St John's College, Cambridge for their continued support for the College Chapel Survey.

Oxford, Cambridge, and Durham college chapels reported a total worshipping community of 4,688 people. The majority, perhaps unsurprisingly, were aged 18-69 years (79%), while children and young people each accounted for less than 5%. On average, just over a fifth of the college student body are part of the worshipping community.

Note: Worshipping community information was provided by 44 chapels.

The majority of Oxford, Cambridge, and Durham college chapels did not hold services at Easter or Christmas in 2016. The two chapels reporting Easter services had a total attendance of 815 people. The four chapels reporting Christmas services had a total attendance of 2,630 people.

19,477 people attended Advent and Christmas carol services during 2016.

4,853 people attended Commemoration of Benefactors services, and 4,428 people attended graduation or leavers’ or end of year services during 2016.

Other special services reported in 2016 included: All Souls Requiem; Taize Prayer; Lent readings; Remembrance and Epiphany Carol Services.
Methodology

Data presented in this report were collected via the 2016 Chapel survey, which was completed by Oxford, Cambridge, and Durham University college chapels. This is the second time the survey has been conducted with all three universities, the first being in 2014. The survey aims to build a more comprehensive picture of the valuable contributions chapels make to local and national worship. The survey was sent to all 56 college chapels using Survey Monkey 2017. 46 college chapels completed the survey giving a response rate of 82%.

The survey was developed with the guidance and advice of The Revd Canon Dr Simon Jones of Merton College, Oxford and Revd Duncan Dormor, former Dean of St John’s College, Cambridge.

Chapels were asked to report on many different aspects of chapel life including:

- Baptisms, confirmations, marriages and funerals
- Usual Sunday and Midweek attendance
- Worshipping community
- Choral traditions
- Christmas, Easter and other services.

For the first time college chapels were asked to report their ‘worshipping community’, which is asked of other Church of England churches as part of their annual Statistics for Mission return (https://www.churchofengland.org/more/policy-and-thinking/research-and-statistics/key-areas-research/#church-attendance-statistics). For the purposes of this survey, a chapel’s worshipping community was defined as those people who attend the chapel regularly, for example at least twice a term, or would attend if they were not prevented by illness, infirmity or temporary absence.

While many figures in this report have been rounded, totals, percentages and averages were calculated before rounding occurred. Hence row and column totals will not always agree exactly with the sum of the stated amounts.

No estimation has been attempted for chapels that did not respond, so the totals presented may understate the full scale of the activities of Oxford, Cambridge and Durham University college chapels.

**Usual Attendance – on a Sunday and midweek during term time**

This section asks about the total number of services and usual attendance on a Sunday and midweek during term time. Attendance figures should include all clergy, choir members, servers etc. and all people attending should be counted whether or not they are regular members of the congregations. Persons attending more than one service in the chapel on a Sunday or midweek should, as far as possible, be counted only once.
(Please note that midweek service count excludes Sunday services)

Please enter separately the number of students and ‘others’ attending Sunday or midweek services. If this is not possible then please enter the total number in the 'TOTAL' box provided.
• 'Students' - Anyone who is enrolled or attends classes at higher education including college or university.
• 'Adults' - Anyone 16 years and over and who is not a student.
• 'Children and young people' - Anyone under 16 years

**Worshipping community**

The following question is about your "worshipping community" at the end of 2016. Worshipping community includes any person who attends your chapel regularly, for example at least twice a term, or would attend if they were not prevented by illness, infirmity or temporary absence. Please include all congregations in your chapels.

**Do not include** visitors e.g. holiday makers, baptism parties etc.
**Do not include** people who left the chapel earlier in the year and are not part of the worshipping community at the end of 2016.

Please complete the boxes, as far as you can. If there is no-one in that category, please write "0". If the age groups of the worshipping community are unknown, please write "unknown" and enter the total figure only.

How many people are in your "worshipping community" at the end of 2016?

Please estimate the proportion of the college student body that is part of your worshipping community
This section aims to further understand the choral traditions of the chapel, including choristers and choral scholars.

Please enter separately the number of adult/student choir members, organ students/scholars and child choristers you had at your chapel on the 31st December 2016. If this is not possible then please enter the total number in the ‘TOTAL’ box provided.

Please provide further details in the comment box below if you have two or more chapel choirs.

Please provide the total number of choirs who sing in the chapel.

If you have two or more chapel choirs please provide further details about numbers etc.
This section includes questions to further understand chapel attendance during Easter and Christmas. We are aware that not all college chapels have services at this time but if you did please answer the following questions.

For **communicants** please enter the number of communicants on Easter Day (including those at vigil services held on Easter Eve) and at any service (day or evening) on Christmas Eve and Christmas Day. Chaplains and other ministers who took communion should be included. If possible, each person should only be counted once even if they took communion at two separate services.

For **worship attendance** please enter the total number of people that attended worship over the same periods. Please include all people: communicants and those that did not take communion; adults, children and young people; clergy and laity. However, as far as is possible, each person should only be counted once even if they attended more than one service.
