SUBJECT INDEX TO THE DOCUMENTS AND PROCEEDINGS OF THE GENERAL SYNOD 1975-1980	1
Appendix I: Numerical list of papers with the prefix GS issued July 1975 to July 1980	57
Appendix II: Numerical list of papers with the Prefix GS Misc issued July 1975 to July 1980	63
Appendix: Other official General Synod papers	67
General index	69

This work is a full index to the documents and debates of the General Synod of the Church of England from July 1975 to July 1980 - covering the life-time of the second Synod. It lists and indexes all the official papers and documents of the Synod issued or discussed during that period and (with certain exceptions) indexes the official Report of Proceedings. The Index is in three parts, as follows:

1. The classified subject index, beginning on page 1. This is the main index. Under each subject heading will be found all documents which are relevant and a precise page reference to the report of the relevant debate(s) in the Proceedings. Extensive reference is made to relevant material to be found in other sections of the Index. In this way it is hoped that as far as is possible all the material needed on a particular subject will be found listed in one place. The subject classification used in this Index is set out on pages (vi)-(vii). A short time spent studying this will be useful in showing the overall arrangement of subjects and how they are related.
2. The list of General Synod publications, beginning on page 57. This is a complete list, in three parts, of the official documents issued during the period covered. It continues the listing in the Index for 1970-75. Against each document is listed the section of the classification in which that document is indexed, so that if a particular document is known reference to the relevant list will show under which subject section that document (and the debate(s) arising from it) will be found.
3. The general index, beginning on page 69. This is a very detailed alphabetical subject index to the main classified sequence. Reference under specific subjects will give the page reference for that subject. It can be assumed that any subject not listed in this general index is not dealt with at any length in either the documents or the Proceedings (subject to the limitations of coverage as mentioned below).

continued...

The following categories of business have not been indexed:

questions	notices of progress of Measures
formal items	formal extensions of periods
procedural items	of approval for experimental
items relating to	services
individuals	annual reports formally approved

Of these it should be noticed that 'Questions' form a part of each Group of Sessions and that the report of them in the Proceedings provides information on a wide variety of subjects, including those covered by this index.

In some cases useful material on a particular subject will be found in the report on a general debate - e.g. the discussion of the agenda at the beginning of each Group of Sessions, and the discussion on specific Boards and subjects during the consideration of the annual Votes of expenditure. This Index does not cover such material.

Reference to debates etc in the Proceedings is by means of page numbers. Three volumes cover each year and these are numbered consecutively in one page-number sequence (in the case of November 1975 this was not the case: a new numbering sequence was started for that volume only and so 1975 references will be found to have (Nov) added to distinguish them from earlier 1975 references).

It should be noted that a number of documents discussed during this Synod, and therefore listed in this Index, were issued during the 1970-75 Synod. These are identifiable by their number: GS papers before 266 and GS Misc papers before 42.

This subject classification is almost identical with that used for the 1970-75 Index. Altered or new sections are marked with *

- Notes:
1. This list continues that to be found in the Index to the Papers and Proceedings of the 1970-1975 General Synod, which listed papers up to number GS 265.
 2. The running number on the left-hand side is the GS number and on the right-hand side is given the section of the classification under which the document is listed.
 3. This list is intended merely as a quick method of identifying a particular document and locating it in the body of the Index. The title given is not necessarily the full title.
 4. Subsidiary documents issued with a document and revised versions of the original are not listed here, though they will be found listed in full in the appropriate entry of the Index.
 5. No classification code is shown for the composite volumes of annual reports, as the individual reports are indexed according to subject.
