1. ANNEX 1: FIRST WORLD WAR CENTENARY CATHEDRAL REPAIRS FUND -PROJECT SUMMARIES

This annex accompanies the document “First World War Centenary Cathedral Repairs Fund: Evaluation Report”, prepared by ERS Ltd. in 2018.

Project Summary Methodology

In Dec. 2017, ERS Ltd. were commissioned, as part of the evaluation of the First World War Centenary Cathedral Repairs Fund, to prepare individual, high-level summaries of the 130 repair projects undertaken as part of grant-funded activity.

Where available, summaries were based on the following data sources:

- Grant applications;
- Project reports; and
- ERS telephone interviews with cathedral representatives and architects.

Following compilation of the project summaries, ERS Ltd. transferred the summaries to the Church Cathedrals and Church Buildings Division (CCB, also known as ChurchCare) of the Archbishops’ Council of the Church of England. CCB then made edits and added additional information based on internal documentation held.

2. LIST OF PROJECT SUMMARIES

130 separate repair projects were funded through the First World War Centenary Cathedral Repairs Fund. The list below details the 130 project summaries contained within this document. The list is presented by cathedral name, with “RC” indicating a Catholic cathedral. Cathedrals undertook between one and five discrete repair projects (i.e. there are between one and five project summaries per cathedral). Where more than one grant was given for essentially the same repair project, this has been combined into one project summary.

Cathedral	Project number	Project name
Arundel RC	1	Window repairs
Arundel RC	2	Rose Window/ west front
Birmingham	1	Interior & lighting
Birmingham RC	1	High-level repairs
Blackburn	1	High-level repairs
Blackburn	2	West tower roofs and transept repointing
Bradford	1	High-level repairs
Bradford	2	State Gate repairs
Bradford	3	Heating System
Bradford	4	Bell tower repairs
Bristol	1	Boiler replacement
