

The Ven Simon Heathfield (Birmingham) to ask the Presidents of the Archbishops' Council:

- Q** Drawing upon the knowledge of, and data available to, the Finance and the Research & Statistics functions within the NCIs, what is the total value of all historic assets (including endowment and glebe assets held under the Endowments and Glebe Measure 1976) held at diocesan level across all of the dioceses, showing, in tabular form:
- the range of these assets in league table form from richest to poorest diocese;
 - the value of these assets on a per person basis for the population of each diocese;
 - the average weekly Church of England attendance in each diocese, as a percentage of the population; and
 - the percentage of each diocese's population in who live in the 10% most deprived lower super output areas nationally?

Canon John Spence to reply as Chair of the Finance Committee:

- A** This information is provided on the noticeboard.
