

## Question 91 Revd Charlie Skrine (London)

The list below contains the 903 records referred to in GS2161, along with 11 records from the Diocese in Europe.

The list has been produced in response to Synod question 102 Skrine: “Thank you for publishing last year the names of the 680 churches with 25 or more under 16s, and for the excellent GS2161 for this Synod. Noting that the data in GS2161 is based upon an updated list of 903 parishes, would you please publish (on the website and the noticeboard) the names of those 903 parishes (perhaps alphabetically within each of the three different attendance bands as before)?”

This list is based on the Statistics for Mission 2018 dataset; those interested in using the list are encouraged to read the published methodology, which can be found in the Statistics for Mission report (pp. 43-46): <https://www.churchofengland.org/media/18763>

GS2161 concentrates on the 2018 “Average Sunday attendance”, based on the 2018 October count; this includes attendance at Sunday church services and Sunday fresh expressions of Church. A somewhat longer list would result if attendance at midweek services and midweek fresh expressions of Church, which is also collected as part of Statistics for Mission, were included. A slightly different list would be generated if figures from different years were used, in part because of normal fluctuations in attendance.

Most of these records relate to a single church, though some are joint records. Most of these records are figures as supplied by churches, though some are estimated (based on responses from those churches in previous years).

Records have been grouped by broad size category, as in GS2161. Within each category, records have been grouped by diocese and sorted by parish name.

Church of England Research & Statistics unit

### Records with average Sunday attendance of over 100 people aged under 16

Diocese	Parish	Church(es)
