Email: alice.risdon@exeter-cathedral.org.uk

applies to the Commission for approval of the following proposal:

A programme of archaeological evaluation in the east end of the Cathedral which will provide information to determine the best positions for the new heating system and lavatories. It aims to minimise archaeological impact and ensure the survival of any remains that might be left *in situ*.

Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]

The programme will be conducted in two stages: first Evaluation in the development stage of the project, which will seek to establish as much information as possible about the character of the deposits which may be removed, and second the completed excavation in the delivery phase. The attached WSI details this first stage.

Plans, drawings, specifications or other documents

The proposal is described by the following items which accompany the form:

JA Att 1-WSI for E end
JA Att 2 – Briefing Note on Scott’s floors
