Annual Review 2020
Providing retirement services to those who work or minister for the Church of England
Welcome

The Pensions Board provides retirement services for people who work or minister for the Church. This review highlights the work of the Board in 2020.

2020 has been profoundly marked by the impact of the coronavirus pandemic. For many of our customers, members, Church colleagues and staff, this year has been very difficult.

Throughout the year we have worked hard to ensure the safety and continuity of key services. Office-based staff made a rapid transition to homeworking, supported by secure IT systems. Pensions and Housing helplines have operated with minimal disruption. Housing activities concentrated on essential maintenance, resident wellbeing during lockdown, and assisting those within 18 months of retirement.

Despite volatile investment markets, total assets returned over 9% in 2020, with the portfolio benefitting from diversification across asset classes and a long-term approach. This in turn has meant that the funding level for our largest scheme – the Clergy scheme – has held up well. Meanwhile, statutory valuations of the other two pension schemes (CAPF and CWPF) were substantially completed in the year, with long-term strategies agreed for both defined benefit schemes. We are grateful for the engagement of participating employers to achieve this.

We put forward important proposals to simplify and reduce the cost of the Board’s governance arrangements and bring us into line with good practice externally. These proposals have been subject to an extensive formal consultation and are due to be discussed at General Synod in 2021. Work also started on two major systems projects in housing and pensions to automate more of our core processes and enable better services through new online tools for customers and staff.

As part of our commitment to climate transition, we launched the FTSE TPI Climate Transition Index (allocating around £800m to this), and co-created a new global Net Zero Investment Framework for pension funds. As the Church’s lead on extractives, we worked with other investors, the UN and the mining industry to establish a global standard on mining safety. These are world firsts, reflecting our ambition that members should be able to retire well, confident that their pension funds are invested sustainably and in ways that are helping make a better world.

Even amid the pandemic, we have continued to make good progress on our strategic priorities: to simplify; to become less financially reliant on the wider Church; and to engage in great conversations with those we serve and companies in which we invest.

Even through such a trying year, it remains our deep privilege and joy to serve those who work and minister for the Church of England. Looking forward we are determined to continue to press ahead with our strategic priorities, supporting the vision for a simpler, bolder, humbler Church.
## Strategic view of the year

A drive to simplify, reduce costs and continue to improve our offer – for customers, beneficiaries, and the Church as a whole – runs through everything we do. This is reflected in our six strategic objectives and our delivery plans.

### OUR OBJECTIVES

<table>
<thead>
<tr>
<th>Objective</th>
<th>2020 HIGHLIGHTS</th>
<th>Key Priorities for 2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrate leadership in ethical and responsible investment</td>
<td>The assets of the pension schemes returned over 9% on average despite a turbulent year for markets.*</td>
<td>Continue to evolve our investment strategy to optimise risk and returns, including in the light of Covid-19.</td>
</tr>
<tr>
<td>Effective and efficient delivery of our pension schemes</td>
<td>Successfully completed the triennial valuation of the CAPF scheme, agreeing a long-term journey plan.</td>
<td>Conclude CWPF scheme valuation (statutory deadline of 31 March 2021).</td>
</tr>
<tr>
<td>Quality housing and charitable services that our customers and funders value</td>
<td>Strong focus on customer wellbeing and safety – adapting plans and services to reflect national and local Covid-19 guidance.</td>
<td>Implement a new Housing Management system and a simpler approach to discretionary charitable grants.</td>
</tr>
<tr>
<td>Understand what matters most to our customers</td>
<td>Achieved customer satisfaction scores at 8 out of 10 or above for all services, despite the switch to remote working.</td>
<td>Get in touch with clergy c.5 years from retirement to understand housing needs.</td>
</tr>
<tr>
<td>Model good governance and stewardship</td>
<td>Extensive consultation on the Legislative Reform order to simplify the Board’s governance.</td>
<td>Further develop our property asset strategy, including surveys and taking steps forward on net zero.</td>
</tr>
<tr>
<td>Create a great place to work for all our teams</td>
<td>Supporting staff wellbeing through the pandemic through formal and informal means.</td>
<td>Expand our customer experience research and monitoring, including best practice benchmarking.</td>
</tr>
</tbody>
</table>

* Provisional results and subject to audit.
Pensions

The Pensions team is halfway through a two-year project to upgrade our administration system. It will improve how we provide our service to our members and participating employers, using online tools.

We are planning to release a member web service in 2021. This will allow members and pensioners to access their records through a secure portal. They will be able to communicate directly with us and view correspondence online. This has environmental benefits, reducing paperwork, and administration costs. It will also improve our response times to member queries. Over the coming years, we will extend this web service, eventually enabling members to manage their pensions directly and even ‘retire online’.

With the onset of the pandemic, we deployed tried and tested business continuity plans to move our entire team to homeworking using secure systems. We also deployed additional IT kit, enabling the helplines to maintain a good level of service to our members and participating employers.

We worked successfully with employers, other national church bodies, and our professional advisers to monitor the financial implications of the pandemic and any pressure on the covenants backing the schemes. For some employers, this year has been very difficult. However, pension contributions have been maintained throughout 2020.

As part of a drive for simplification, we conducted the statutory valuations of CAPF and CWPF in parallel, based on a 31 December 2019 valuation date, and with careful consideration of The Pension Regulator’s coronavirus guidance. Both schemes will have been affected by changes in market conditions post the valuation dates; this is being monitored carefully.

The CAPF valuation concluded in the year. The estimated deficit reduced to £9m (from £13m in 2017) at the valuation date, with deficit recovery contributions continuing to late 2023. As part of the valuation, a long-term funding target and de-risking strategy was agreed.

The CWPF valuation is on course for completion by the statutory deadline of 31 March 2021. This is a complex piece of work across three sections and hundreds of employers.

• The Defined Benefit section benefited from extensive engagement with employers before and during the valuation. A reduced overall deficit of £11m as at the valuation date is expected (down from £26m in 2016). Where required, recovery plans are being agreed.

• The Pension Builder Classic section also showed a deficit, meaning that, while pension increases continue to be paid according to scheme rules, discretionary bonuses could not be applied.

• The Pension Builder 2014 section continues to perform well, with discretionary bonuses applied in all but one year since it was established.

Despite the pandemic, excellent progress was made on an IT upgrade to deliver new functionality for members and employers during 2021.

Over 41,000 people rely on us for their pensions, with around 700 Church of England organisations participating in our schemes.

The Pensions Board is Trustee of three regulated pension schemes, and our members serve in many different roles for the Church:

Church of England Funded Pension Scheme (CEFPS)
Provides pensions and benefits for clergy and others in ministry, for service from January 1998. Benefits earned before 1998 are provided by the Church Commissioners.

Church Workers Pension Fund (CWPF)
Provides pensions for the staff of employers linked to the ministry and mission of the Church of England. Over the last few years, this has been the fastest growing scheme as parishes and other church organisations choose to join CWPF, to offer qualifying employees a pension scheme that meets auto-enrolment standards and has excellent ethical credentials.

Church Administrators Pension Fund (CAPF)
Provides pensions for the staff of the National Church Institutions. The fund has two sections – a defined benefits section which closed to new entrants in 2006, and a defined contribution section.

INTRODUCING MEMBER WEB

The Pensions team is halfway through a two-year project to upgrade our administration system. It will improve how we provide our service to members and participating employers, using online tools.

We are planning to release a member web service in 2021. This will allow members and pensioners to access their records through a secure portal. They will be able to communicate directly with us and view correspondence online. This has environmental benefits, reducing paperwork, and administration costs. It will also improve our response times to member queries. Over the coming years, we will extend this web service, eventually enabling members to manage their pensions directly and even ‘retire online’.

We are also making improvements to our system to benefit employers. In 2021, we will make changes to how we collect contributions for the Church Workers Pension Fund using new system functionality. This is an important step in continuing to simplify how we work, reducing the work involved for employers and the Board in running our pension schemes.
Climate change is one of the biggest risks investors face. Both an ethical and financial issue, it remains a major focus of our engagement with companies, and shapes our investment approach.

We continue to co-chair the Transition Pathway Initiative (TPI) with the Environment Agency Pension Fund. TPI offers investors a robust approach to assessing companies’ preparedness for transition to a low-carbon economy, and is backed by 93 investors with over $22tn in assets under management. In 2020, insights from TPI were embedded within a new market index – the FTSE TPI Climate Transition Index. Developed with FTSE Russell and the London School of Economics Grantham Research Institute on Climate Change and the Environment, this index is the first in the world to consider what targets a company has (or has not) set in support of the goals of the Paris Agreement, adjusting investment in those companies accordingly. By the end of 2020, the Board had over £800m of investments allocated to the index.

The development of the index was recognised as ‘ESG Incorporation Initiative of the Year’ by the UN-backed Principles for Responsible Investment (PRI), in their 2020 awards.

We collaborate with other pension funds and investors globally to collectively drive action on climate change. With Dutch Fund APG, we co-led the development of the first global Net Zero Investment Framework. This provides a practical blueprint for pension funds to tackle climate change and achieve net zero emissions by 2050 across all their investments. On behalf of the Climate Action 100+ global engagement initiative (supported by funds with $51tn of assets) we led engagement with Royal Dutch Shell to secure the most comprehensive commitment from an oil and gas major to align to the goal of net zero.

The Board has continued to lead the Church’s engagement on mining and extractives, coordinating the investor response to the Brumadinho tailings dam disaster in 2019. The first-ever global industry safety standard on tailings (waste) dams was launched in August 2020, supported by investors, the UN and the world’s largest leading mining companies. At the end of 2020, a further partnership was announced between the UN, the Council on Ethics of the Swedish National Pension Funds and the Board to establish an independent international institute to implement the global tailings standard. The Mining and Tailings Safety Initiative was recognised as the most impactful investor engagement through the PRI award of ‘Stewardship Project of the Year’.

We are guided in our engagement activities by the advice from the Church’s Ethical Investment Advisory Group (EIAG). Ethical policies and guidance across 18 areas advise exclusions on certain kinds of investments such as tobacco, gambling, high-rate lending, or support a mixture of ethical exclusions alongside engagement to change company behaviour.

In our policies and engagement with companies, we coordinate closely with the other National Investing Bodies, the Church Commissioners and CBF Church of England Funds.

“We believe members should be able to retire well, confident that their pension funds are invested sustainably and in ways that are helping to make a better world.”
Allocated around £800m to the first market index that tracks a company’s alignment to the goals of the Paris Agreement – the FTSE TPI Climate Transition Index.

380 companies assessed under TPI across 15 sectors, including airlines, manufacturing, shipping and consumer goods.

Engaging well with companies to change corporate practice supports improved company performance and a better impact on society and the environment. Using our votes and our voice where we can in order to drive change, is all part of demonstrating good stewardship of our members’ funds.

42.3% reduction in the carbon intensity of our public equity holdings (weighted average carbon intensity: t CO2e/$M Sales, relative to December 2019).

Launched the first-ever global standard on tailings (waste) dams for mining companies following the Brumadinho disaster.

Voted at 2,245 company meetings, on 39,049 resolutions, across 51 different markets.

£800m

The Pensions Board together with one of our fund managers, Robeco, has led the global engagement with Royal Dutch Shell as part of Climate Action 100+.

Climate Action 100+ is a network of over 545 investors backed by US$5tn in assets under management.

This engagement led to the first-ever joint statement between Shell and Climate Action 100+ on a number of climate change commitments, including a commitment in 2020 to become net zero aligned. As assessed by the independent TPI tool, this is one of the most ambitious commitments to date of an oil and gas company, including a plan to stop selling fuel to customers that are not committed to net zero.

Further steps are still needed, but we are confident that industry-leading engagement is delivering tangible change in line with the Paris Agreement.

This is just one example of how partnership working can drive real change. Collaboration – with investors, asset owners or indeed companies themselves – is at the heart of our stewardship approach.

More details on our stewardship approach will be covered in the Pensions Board’s first annual stewardship report, due for publication in the spring.
Our investment results

Despite a volatile year for markets, our investments performed well.

The global pandemic and accompanying response by governments and central banks, caused sharp movements in the value of our investment holdings over the course of the year.

As a pension fund, some of our assets are invested for growth, and others are invested in a less risky way to back pensions in payment. In aggregate, all assets across the fund returned 9.4% in 2020. This return compares well to the average over the past five years of 10.3% p.a.

Despite a turbulent first part of the year, our public equity portfolio recovered by December to generate returns of over 10.8%. Our other growth assets, including property and our fledgling private equity portfolio, returned just under 1.3% over 2020.

Diversifying and more stable assets also posted reasonable returns. Our diversified income pool of infrastructure and private debt recorded returns of 5.9%, and our Liability Driven Investment portfolio generated returns of just over 18.1%.

These returns were achieved not only in a difficult market environment, but also while transitioning the portfolio to a more diversified and environmentally sustainable structure. A diversified portfolio helps to weather economic uncertainty, in turn offering more certainty to both members and employers.

We pool most of the individual pension scheme assets for investment purposes. This allows our smaller schemes to access economies of scale and investment opportunities that might not be available to them otherwise. The chart below shows how our assets were invested at the end of 2020.

Our long-term investment plan envisages both restructuring and reducing public equity investments as a share of the total, with further investments in private markets and other assets. We can do this because, overall, our schemes are continuing to grow and are some years from maturity. This will further diversify our growth portfolio and directly support our ethical investment agenda, by allowing us to invest in areas such as renewable energy, energy efficiency, environmental wellbeing and technology.

Further development of our asset allocation will continue throughout 2021, supported by ongoing risk analysis.

Results are provisional and subject to audit.
The pandemic represented an unprecedented challenge for our Supported Housing schemes.

Faced with the rapid spread of Covid-19 across the country, the team moved quickly, adapting services to protect residents and staff. ‘Covid secure’ workplace plans were put in place, drawing on professional advice, Government guidance and best practice.

At times we have had to restrict visits, our guest rooms have been closed, and delivery of meals to residents’ own flats has had to replace communal dining. We are grateful for the support of residents, who have worked with us to not only keep the schemes safe, but also to keep the sense of community very much alive in innovative ways. By the end of the year, some of our residents had received their first vaccination.

In late 2020, we launched new web pages (www.churchofengland.org/housing) for our schemes. At a time when ‘open days’ cannot take place, these offer a window into what Supported Housing offers – showing the warmth and welcome of each community. We plan to do more to expand this new online profile over the coming year.

We have over 2,700 housing customers – our priority in 2020 has been their safety and wellbeing.

2,700
We have over 2,700 housing customers – our priority in 2020 has been their safety and wellbeing.

260
Over the year, we supported almost 260 households through our welfare advice service by offering support to access a range of benefits and services.

260
Over the year, we supported almost 260 households through our welfare advice service by offering support to access a range of benefits and services.

Our portfolio of 2,100 properties spans England and Wales, helping clergy secure the right home for retirement. The portfolio consists of rental, shared ownership and supported housing options, alongside a legacy mortgage scheme. Rental forms the largest share, with about 1,200 homes available to let through our CHARM scheme.

Our Supported Housing schemes provide individuals with their own flat within one of seven retirement communities, offering both independence and support if needed.

We work with potential customers from the earliest stages of retirement planning (up to five years in advance), through to identifying the right property and moving in. Additionally, all our customers may access advice and support on welfare entitlements, navigating the care system, and signposting to other charities.

In 2020, our main focus has been to support our customers through the pandemic, and adapt our services to keep customers, partners and our team safe. During the national lockdown in the spring, our team reached many of our 2,700 customers by telephone to check on their wellbeing and to offer help to access local support networks as needed. In line with Government guidance, we also temporarily paused all house moves across our portfolio. However, throughout this period, our emergency repairs service continued through Sanctuary, our maintenance contractor.

As the year went on, plans adapted as needed to changing guidance and restrictions. In the summer, non-urgent repairs, property viewings, and house moves restarted, with the right health and safety measures in place. Our team worked hard to match those closest to retirement to a suitable home. Thanks to the extraordinary commitment of staff and residents, our Supported Housing schemes remained Covid-free throughout 2020.

The pandemic has not prevented continued development and improvement of our services. Work on a new Housing Management System proceeded at pace during 2020. Once live next year, this will reduce paperwork, improve data quality and free up our team to spend more time with customers. Meanwhile, a study on carbon reduction in the housing portfolio will inform our property care plans.

We are grateful for the support of all our residents who, in the past year, have helped keep our schemes safe and the sense of community very much alive.
The work of the Pensions Board is overseen by a Board of Trustees

Our Trustees cover a diverse range of backgrounds, experience and expertise; a balance that directly supports the successful delivery of all our activities.

The members of the Board are either elected or appointed by the members and employers of the pension schemes, and other interested bodies. The Chair of the Board is appointed by the Archbishops of Canterbury and York with the approval of General Synod.

The Board normally meets five times a year, supported also by committees covering housing, pensions, investments and audit.

In 2021, with the permission of the General Synod, we plan to simplify the Board’s governance structure, driving better value for all we serve, whilst retaining strong oversight of our Pension schemes and charitable services.

“I wish to put on record my gratitude to all Trustees and co-opted members of the various committees who freely give their time and expertise to the Board. I also offer special thanks to Jeremy Clack and Deb Clarke who finished their terms on the Board and Investment Committee respectively in 2020.” Clive Mather

Appointed Members:
Jeremy Clack FIA (to 31 December 2020)
Canon Nicolete Fisher
Tony King
Clive Mather (Chair)
Nikesh Patel
The Revd Caroline Titley
Ian Wilson (from 1 July 2020)

Elected by the House of Laity:
Roger Boulton FIA
Canon Emma Osborne
Bill Seddon

Member Nominated Members:
The Revd Fr Paul Benfield
The Revd Nigel Bourne
The Revd Peter Ould
Susan Pope
Maggie Rodger
The Ven David Stanton
Michaela Southworth
The Rt Revd Alan Wilson

Employer Nominated Members:
Richard Hubbard
Canon Sandra Newton
