FORM 8 (Rule 7)

Section 9 of Care of Cathedrals Measure 2011
Application to the Cathedrals Fabric Commission for approval of a proposal

To the Cathedrals Fabric Commission (“the Commission”)

The Chapter of the Cathedral Church of:

Christ and the Blessed Virgin Mary, Rochester

c/o The Chapter Clerk-Executive Director
Garth House
The Precinct
Rochester ME1 1SX
chapterclerk@rochestercathedral.org
Tel: 01634 843366

applies to the Commission for approval of the following proposal:

External paving repairs and improvements

Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]

To improve and repair the areas of external paving on the north side, between the Cathedral and St Nicholas Church and Blackboy Alley, and along the west front of the Cathedral towards Chertsey’s (College) Gate

Plans, drawings, specifications, or other documents

The proposal is described by the following items which accompany the form:

1. Heritage Statement by the Surveyor to the Fabric (September 2021)
2. Archaeological Assessment of Proposed Repaving Work outside the North Transept
3. Supporting drawings
4. Photographs with initial ideas from April 2021 discussions

applies to the Commission for approval of the following proposal: short description

Record, lift, store and relay of floor to St George’s Chapel

Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]

Careful recording, lifting and storage of chapel floor and substrate
Careful demounting and removal of chapel screens to appropriate controlled storage
Lowering the underlying levels to allow for the new floor substrate, including modifications to conduits and any burial vaults, and removal of all redundant buried building services
These activities to be controlled by the requirements of the Cathedral Archaeologist’s Written Scheme of Investigation.
Installation of a new moisture permeable limecrete floor slab over glass-rock pebble insulation, including a network of sealed containment ducts, outlets and pipework runs
Installation of a limecrete screed with integrated UFH coils and fine float finish to accept the marble tiles and thicker mosaic features.
Relaying the existing floor finishes, with the same layout and level as existing.
Incomplete areas of black and white chequerboard marble flooring (e.g. to the area below the existing altar plinth, over which the stone flooring does not extend) will be completed in new black and white marble stone tiles, to match the existing.
The entire floor will maintain moisture-open soft joints to all existing walls, piers and retained building features.

Plans, drawings, specifications or other documents

The proposal is described by the following items which accompany the form:
List and number the items and give reference numbers, if applicable.
The following documents are available at:
http://leicestercathedral.org/public-consultation-documents/

CFCE Submission Application from van Heyningen & Haward Architects
Appendices, including:
• Report on Intrusive Investigation
• Heritage and Archaeological reports
• Other supporting materials
Existing and proposed drawings
