

## Summary Funding Statement 2021

Church of England Funded Pension Scheme (CEFPS)

**Each year we are required to let you know the financial position of your pension scheme. This Summary Funding Statement gives you a financial update as at 31 December 2021.**

Our independent advisers, LCP, help us monitor the pension scheme's finances. A full valuation, which is a thorough and independent review of the financial position takes place every three years.

This statement summarises the results of the last valuation at 31 December 2021.

The next full valuation will be at the end of 2024.

If you have any questions or would like a copy of the formal accounts, rules, investment or funding policy, please let us know.

# Actuarial valuation at 31 December 2021

At 31 December 2021 the target level of assets was £2,160m and the actual assets were £560m above this.

31/12/2021

Asset value	£2,720m
Target funding level	£2,160m
(Shortfall) / Surplus	£560m

The chart shows that on 31 December 2021 there was a £560m surplus against the target level of assets.

We last reported a surplus of £110 million at 31 December 2020.

The funding position therefore improved by £450m during the year. This was due to favourable investment experience, new contributions being paid in, and new assumptions from the 2021 valuation.

As there was a surplus at 31 December 2021, the Responsible Bodies no longer pay deficit contributions. The Responsible Bodies continue to pay contributions to cover the cost of pensions being earned each year and cover running expenses.

The funding position does not affect the pensions being paid – we have always paid members their full pensions.

We expect the snapshot to change from year to year because CEFPS’s finances depend on changes in global financial markets.

The next full actuarial valuation is due as at 31 December 2024.

## Assets

The assets come from contributions paid by members and Responsible Bodies, together with investment growth.

We hold the assets separately from the Responsible Bodies and we are responsible for investing this money.

We hold the assets in a common fund – they are not held in separate pots for each member. Pensions are paid to members out of this common fund.

## Assumptions

We employ an independent expert to provide regular financial checks. These regular check-ups involve calculating a target level of assets.

The target level of assets is the amount that we expect is enough to pay everyone’s pension, based on assumptions about the future. For example, how long people will live; what inflation will be; and what investment returns will be.

Nobody knows exactly how much money will be needed to pay everybody’s pensions. This depends on how actual experience compares with our assumptions.

# Your questions answered

## Q: What if the scheme has to wind-up?

We and the Responsible Bodies do not intend to wind up the pension scheme. We monitor the impact should the Responsible Bodies no longer be able to support the scheme. In this event, a wind-up is likely to begin and the responsibility for paying members' pension benefits would be transferred to an insurance company.

We monitor the cost of securing all members' benefits with an insurance company. The most recent estimate provided by our independent advisers looked at the position on 31 December 2021. This estimate showed that, at that date, an additional final contribution of about £480 million would be needed to make sure all members' pensions could be paid in full by an insurance company.

## Q: Is my pension protected?

If the Responsible Bodies became insolvent and there was not enough money to secure benefits in full with an insurance company, members may not receive their full pension benefits.

To help members in this situation, the Government has set up the Pension Protection Fund. If your pension enters the Pension Protection Fund, the amount you receive may be less.

The Pension Protection Fund rules are complex - the amount it will pay depends on the our rules, whether you are already receiving a pension, your age and the type of pension.

More information and guidance about the Pension Protection Fund is available at [www.pensionprotectionfund.org.uk](http://www.pensionprotectionfund.org.uk) or by contacting the Pension Protection Fund, 12 Dingwall Road, Croydon, Surrey, CR0 2NA (tel: 0345 600 2541).

## Q: What about my Additional Voluntary Contributions (AVCs)?

If you have AVCs, these are invested in with Legal & General or Prudential.

## Q: Is there anything else I need to know?

Regulations require us to confirm that since the last Summary Funding Statement the Responsible Bodies have not taken any money out and the Pensions Regulator has not intervened in the running of the pension scheme. We are happy to confirm this.

## Pension Scams

Be aware, scammers are taking advantage of the current situation to target pensions. They are known to increase their activity at times of financial stress. The Pensions Regulator has said you should exercise extreme caution and visit the [www.fca.org.uk/scamsmart](http://www.fca.org.uk/scamsmart) website which has specific guidance relating to Covid-19.

In particular, if you are called out of the blue by an individual or company promising to move your savings to a 'safe haven', please hang up. Cold-calling in this way is illegal. Pension scams can be hard to spot. Scammers can be articulate with credible websites, testimonials and materials that are hard to distinguish from the real thing.
