Notes: Data drawn from CEFPS Annual Report and Accounts, except \*draft 2022 accounts, and \*\*2003 figures are an estimate assuming a contribution rate of 28% of pensionable stipends of approximately £200m. Table excludes any additional contributions made by Responsible Bodies for purposes of augmenting a member's benefit at retirement.

**Table 2: CEFPS Contribution rates over time**

The contribution rates have changed over time, usually as a result of a triennial valuation. This table sets out the applicable contribution rates over the same time period as set out in the Schedules of Contributions.

NB contributions are expressed as a percentage of the "Pensionable Stipend" which is derived from the previous year's National Minimum Stipend. (Hence applying these percentages to actual stipend payments would overstate the contribution.)
